Page 41

1 A. Maybe a point source.

2 Q. All right.

3 A. If it's the watershed from a nonpoint  
4 source, it could be Department of Ag. It could --  
5 Conservation Commission would certainly play a role,  
6 you know, if it's oil and gas. So that's such a  
7 fact-driven piece.

8 What we do in the lakes is assess lakes. And  
9 the one lake that comes to mind, Lake Wister, is one  
10 that we've done a lot of work on to try to help the  
11 Poteau Valley Improvement Authority to improve water  
12 instead of treating that.

13 Q. All right. Can -- can you give me --

14 A. And that mainly had been erosion on the --  
15 on the banks of that lake.

16 Q. All right. And you may have just done it,  
17 but can you give me a fact-specific scenario in which  
18 the Water Resources Board would have exclusive  
19 responsibilities for BMPs on a specific lake?

20 A. I wouldn't say that we have exclusive  
21 responsibility.

22 Q. All right. How about primary?

23 A. It's -- it's a shared responsibility --

24 Q. All right.

25 A. -- to improve water quality in the lake and
